Product Description

STIHL MSA 190 T Battery Powered Chainsaw (Unit Only) - 14"

MORE POWER THAN OUR GASOLINE MS 194 T CHAINSAW.

Meet the STIHL MSA 190 T—the battery-powered top-handle chainsaw that's built to work as hard as you do. Whether you're pruning, climbing, or tackling tree care in parks or plantations, this saw delivers the same cutting power as STIHL's 1.5 kW MS 194 T gas model, minus the noise, fumes, and fuel usage. It's lightweight at just 9.9 pounds with the AP 200 S battery, so you can move easily through the canopy with newfound balance, confidence, and cutting opportunities. The variable speed trigger gives you total control over every cut, helping you save battery and stay precise. Plus, it's ready for the STIHL's Comfort Hook, keeping your saw horizontal and balanced while you climb. And here's the kicker—it costs less than the gas version, making it a smart upgrade for pros who want more saw for less hassle. Lightweight, quieter than gas units, and built for the tree, the MSA 190 T is your go-to tool for getting the job done right.
