Product Description

DR PRO XL-DRT Model

Our top-of-the-line, walk-behind rototiller gives you the convenience of dual tine rotation, allowing you to easily switch between forward and counter tine rotation. For tilling or cultivating in established gardens, go with forward rotation. Switch to counter-rotation for sod-busting or loosening of compacted soil. Either way, the self-propelled, tractor-style wheels pull the PRO XL along, making the job easy on you!

- Engine: 2 years residential, 90 days commercial

Features

Dual Tine Rotation The ability to switch between forward- and counter-rotation lets you choose the right mode for the job at hand. The simple lever adjustment is right at your fingertips.

Power Driven Wheels The tractor-style pneumatic tires propel the tiller forward easily in almost any terrain. When you want to free-wheel, you can simply switch into neutral gear.

Drag Stake and Debris Shield The drag stake provides extra resistance. When not needed, it can be raised and pinned in place. The debris shield and side walls protect operator from thrown soil
