### Product Description

#### Doolittle Trailers 82x16 Gooseneck Trailer - XT822614K23

**Meet the Hydra Dove Gooseneck by Doolittle Trailer MFG — Built to Dominate.** This ain't your average gooseneck — this is the Hydra Dove, a precision-engineered beast designed to take on the toughest hauls with style, strength, and smarts. Anchored by a massive 12" I-beam neck — towering over the competition — and framed with 6" channel side rails, this trailer doesn't flinch when the load gets heavy. At its heart is the 10-foot hydraulic dovetail with 8,000LB load capacity, cleated steel runners, delivering unmatched traction and effortless loading for your equipment. Whether you're hauling steel, wheels, or anything in between, that cleated runner grip is your edge in the field. The torque tube anti-twist system keeps everything locked down and rock solid — no flex, no sway, just straight-up stability. And when you're packing serious gear, the bridged frame on 35'+ models adds brute reinforcement where it matters most. Need tools on hand? Lock 'em up tight in the built-in secure toolbox. Need quick access? Four EZ steps keep you climbing safely and efficiently. Dual 12K hydraulic jacks and a 30K adjustable coupler make hooking and lifting a breeze — fast, powerful, and reliable. Top it off with a spare tire and mount, and you're never caught off guard. **Doolittle's Hydra Dove — Where raw muscle meets engineered precision. Pull like a pro. Load like a legend.**
